Intro

3

For this week's workshop, you will need to work on three different exercises and implement all of the CSS properties that you learned during the week to stylize the pages.
Use "float" to position the elements.

Apply the styles, as shown in the screenshot below. Please use the provided images & screenshots in the starter-files folder, or download different photos to fit the current design and style. The *Contact Us* link should redirect the user to the page on the next slide.

Please use the screenshots folder to see how the pages should look. If there is not enough time, try to finish the exercises at home. Feel free to use suitable different images for the exercises if not provided.
